[Fig. 8]

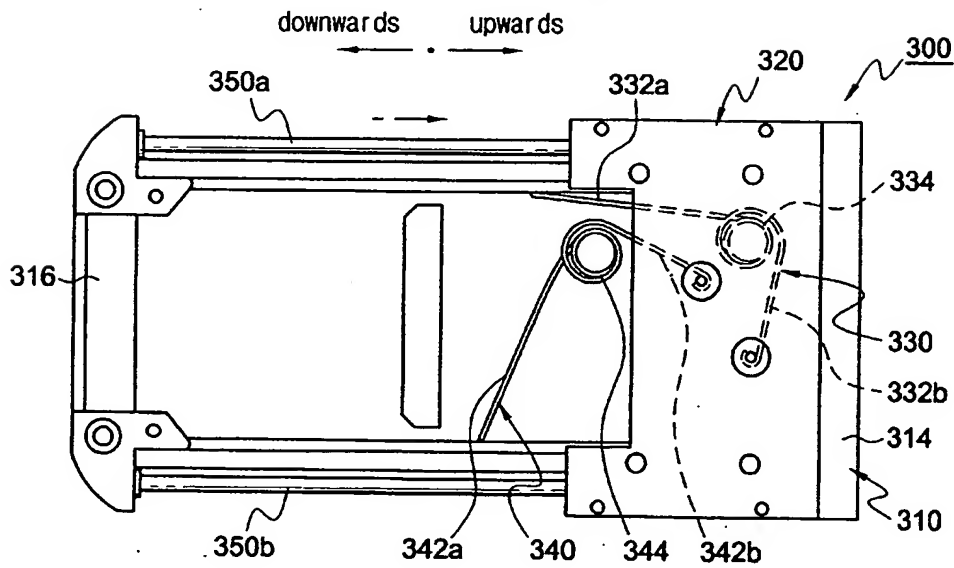

This exploded perspective view illustrates the assembly of a mechanical device. The main body consists of a rectangular frame (310, 312, 314, 316, 318) and a base plate (320). A vertical rod (350a) is shown passing through the frame and base plate, secured by a nut (352a) at the top and a nut (352b') at the bottom. A horizontal rod (350b) is also shown. A bracket (330) is attached to the frame, and a component (340) is shown being inserted into the bracket. A cable (342a, 342b) is connected to the component. A small component (328a, 328b) is shown being inserted into the base plate. A screw (329a, 329b) is shown being inserted into the base plate. A bracket (316a, 316b) is shown being attached to the base plate. A nut (352a') is shown being inserted into the bracket. The assembly is shown in an exploded state, with dashed lines indicating the alignment of the components.
